Happy Birthday Doc!

DOC CORY

The Dental Expression Team would like to wish "Doc Cory," a Happy Birthday! She is an inspiration to us all and may all her birthday wishes come true.

Oral Health Day

March 20th is World Oral Health Day. Oral Health Day is an international day to celebrate the benefits of a healthy mouth. It promotes worldwide awareness of oral health issues and the importance of looking after oral hygiene to everyone from adults to kids. The theme is "World Oral Health Day 2014, Celebrating Healthy Smiles"

So lets do our part, let your friends and loved ones know the importance of a beautiful and healthy smile.

How Important are Dental Visits?

Many people may know that you should visit your dentist at least twice a year. However, studies have actually shown that almost half of the American population visit their dentist only once a year. Here at Dental Expression, we would like to change that statistic. Your preventative dental visits can potentially catch and correct issues that may lead to painful and costly problems.

The Importance Of Your Dental Insurance

Most dental insurance plans offer a plan where you can get 1-2 annual cleanings. They may also offer a significant percentage off many dental procedures. Know your insurance! Feel free to call them and ask for a breakdown of what they offer for you. The insurance representative may also help you in choosing a dentist that is in your area.
