ISSUE #9

## In This Issue:

- You're Future is "Bright!"
- Happy Mother's Day
- Celebrating Cinco De Mayo
- Myth vs Fact

## Your Future Is "Bright!"

It's natural for your teeth to darken over time. Changes in the color of your teeth can be caused by the foods and drinks you consume such as coffee and tea. Other things that can make your teeth dark and stained are medications you take, illnesses, the use of tobacco or improper/poor oral hygiene. Teeth whitening is a procedure that involves removing those stains and discoloration from your teeth. When you have a beautiful, white smile, you will look your best and feel confident in all aspects of life from job interviews to social situations. Here at Dental Expression we offer cleanings and whitenings that will send you in the right direction for that confident smile.

## Happy Mother's Day

In conjunction with the upcoming Mother's Day celebration, Dental Expression has unveiled a Zoom! teeth whitening session for only \$150 for moms! This special is for the hard working mothers that needs that "special break!" Treating your mom to good oral health is one of the best gifts someone could offer! This Offer can be purchased as a gift with our Dental Expression gift cards. there is no time like the present to ensure that mothers are treated to a beautiful smile. CALL FOR DETAILS...901-300-4800

## Cinco De Mayo

The Dental Expression team was happy to participate in the WMC Action News 5 Cinco de Mayo celebration. They offered different Mexican dishes that was prepared by local food truck vendors. We had a chance to meet with some of the Action News 5 personalities, such as Andy Wise and Andrew Douglas.

## MYTH vs FACT

**Myth.** An amalgam or composite filling needs to be replaced if it breaks down or a cavity forms around it, or if the tooth fractures. If none of those problems occur, you can keep the same filling for life.

**Fact:** Fillings do have a life expectancy, but it depends on things like tooth wear and oral hygiene habits. If you brush your teeth twice a day with a fluoride toothpaste and floss and use a mouth rinse once a day, you'll have less tooth decay and your fillings may last longer.

**Armed Forces Day** MARCH 17th
